## Parent information on handwriting skills

Handwriting involves many complex skills such as :

- Knowing letters of the alphabet
- Visual perceptual skills
- Visual motor skills
- Following a sequence
- Controlling the paper to stay within the lines
- Letter formation
- Understanding left to right progression
- Understanding top to bottom progression
- Tracking the movement of the hand, pencil and paper
- Crossing midline skills
- Bilateral coordination skills
- Fine motor skills including in-hand manipulation

Poor skills in any of these areas may flag up in a child's handwriting. That's why I've added a lot of games in today's task that you may not associate with handwriting but are activities that will strengthen skills for writing.
