TRYING

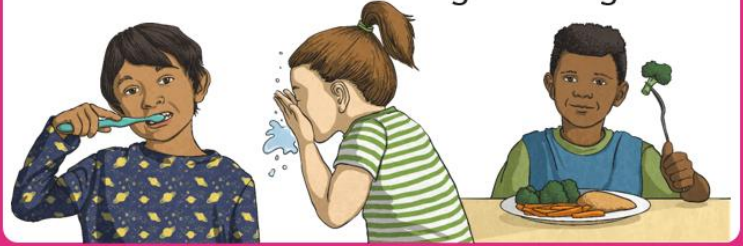

Staying safe

Article 24:

You have the right to the best possible health. You should have good quality health care, clean water, nutritious food and a clean environment to stay healthy.

Article 19:

You should be kept safe from all forms of violence, abuse, neglect and bad treatment by parents or anyone else who looks after you.

Online safety:

If you are worried about something, speak to a **grown-up** at home, if you can.

If you cannot speak to someone at home, you can call **ChildLine** for free.

If you can't speak to a grown-up at home, click on the worry box.

Your learning for today

Click on the links below to find your learning for today.

★ Learning should not take more than 2 hours per day

★ Please upload your learning to your Class Dojo portfolio to get feedback from your teacher.

Premium Property For Sale!

Fresh on the market today we have a stunning, vintage property, built around 1,500 years ago on the edge of a dense, extensive forest. With stiff, wooden walls and a roof thatched with the finest straw, this house oozes with natural charm and faces south to make the most of the daylight hours.

Made of only one room, you can eat, cook, sleep and entertain all from the same space – you are never too far away from the fireplace. Boasting the latest features, such as eye-holes to watch through for enemies and a luxury carpet made from local plants, this property will be snapped up quickly by any eager Anglo-Saxon. It is yours to live in today for only 240 silver pennies.

Quick Questions

1. What do you think 'eye-holes' are?
2. How many rooms does this property have?
3. What is the purpose of this text?
4. Find three phrases which show how the author has made normally boring features sound more appealing.

Life Cycle of a Yellow-Eyed Penguin

Two greenish-white eggs are laid and are incubated by both parents for about 43 days. When the eggs hatch, the parents guard the chicks, day and night, for forty to fifty days. One parent will stay with the chicks while the other collects food.

After the chick moults and loses their soft, brown down, they develop waterproof plumage and are ready to fledge (leave the nest). The juvenile penguins head out to sea cautiously to collect their own food: not all return. When they are adults and ready to breed, most penguins return to the safe place where they were born – their built-in satellite navigation systems get them there!

Quick Questions

1. Which word means the same as young?
2. How long do the parent penguins guard the chicks?
3. Why do you think the penguins return to the place they were born when they are ready to breed?
4. Why does the author use the word 'cautiously' to describe how the juveniles head out to sea?

Popping Punctuation: Missing Punctuation

Add the correct punctuation to these sentences. Use the balloons below to help you.

1. What could possibly go wrong 
2. It was dark outside  the sun had set hours ago.
3. The weather  overcast  did not spoil the day.
4.  Stop right there!  the security guard called.
5. He could only think about one thing  his exams.

Answer 

Popping Punctuation: Missing Punctuation

Add the correct punctuation to these sentences. Use the balloons below to help you.

1. What could possibly go wrong 
2. It was dark outside  the sun had set hours ago.
3. The weather  overcast  did not spoil the day.
4.  Stop right there!  the security guard called.
5. He could only think about one thing  his exams.
6. Jake trudged home  he was disappointed that football had been cancelled.
7. Ben's new haircut was very short  it was different from his usual style.
8. Hassan  who was getting increasingly frustrated  waited for the next bus.

Popping Punctuation: Missing Punctuation

Insert all of the missing punctuation into these sentences. Use the balloons below to help you.

1. what could possibly go wrong
2. it was dark outside the sun had set hours ago
3. the weather overcast did not spoil the day
4. stop right there! the security guard called
5. he could only think about one thing his exams
6. jake trudged home he was disappointed that football had been cancelled
7. ben's new haircut was very short it was different from his usual style
8. hassan who was getting increasingly frustrated waited for the next bus

Write your own sentences which include each of the following pieces of punctuation:

How to Grow a Rainbow

You will need:

- Kitchen roll/paper towel
- Felt tip pens
- Two small bowls of water
- Paper clip
- Thread

1. Cut your kitchen roll into the shape of a rainbow.
2. Colour a rainbow with felt tips about 2 cm up on both sides.
3. Attach your paper clip to the top and tie a piece of thread to it. This will give you something to hold your rainbow with.
4. Fill each small container with water.
5. Hold your rainbow with the ends slightly submerged in the water then watch your rainbow grow!

THE SCIENCE

A brief introduction to 'capillary action'! Water molecules like to stick to things - including themselves. Sticking to things is called *adhesion* and sticking to itself is called *cohesion*. The fibres in kitchen roll make lots of little holes. Water is 'sucked' through the holes because of adhesion (liking to stick to other things) and cohesion (liking to stick to itself) means the rest of the water follows. The water pressure will eventually slow down and the pressure of gravity will mean it stops moving.

@MrsBpriSTEM

Rainbow Paper

You will need:

- Black paper/card (or try other colours!)
- Clear nail polish
- Bowl
- Water

1. Cut your black paper or card into a small rectangle. Start small until you get the hang of it then you can experiment with bigger pieces!
2. Fill a bowl with water.
3. Drop 1 drop of clear nail polish on top of the water.
4. Quickly dip a piece of black paper into the water and pull it out again.
5. Leave it a few minutes to dry.

You can also try placing the paper under the water first and then dripping one drop of clear nail polish on top of it. Once the nail polish disperses across the surface, it's safe to pull the paper out of the water, coating it with a thin film of polish.

THE SCIENCE

When you dip the paper into the water, it gets coated with a thin layer (or film) of nail polish. The rainbow colours you see are caused by *thin-film interference*. Normal 'white' light is actually made up of lots of different colours. When light hits the film of nail polish, the individual colours disperse and the reflected waves interfere with each other to create the beautiful colours.

This is the same as when you can see a rainbow in spilt oil on tarmac!

@MrsBpriSTEM

Using Hwb

All pupils have their own Hwb account. We would children to become more familiar with some of the features that the Hwb platform has to offer. We suggest pupils have a play around on Just2easy as there are some fantastic tools on there. Watch the videos below to familiarise yourself with its features.

This video talks you through the features of Just2easy

"This is a quick tour of Hwb and in particular Just2Easy. We will quickly look at J2 Blast, Jit5, J2data and J2code. Hopefully it will be useful."

Most children are familiar with using Office365 on Hwb. We encourage children to keep using this too.

Check out the Hwb section on our school website for further details on how to use Just2easy, Office 365 and even Minecraft Education Edition!

Spellings – Week 6

Weekly spelling list

Learning Objective: to spell words ending in *-sure*.

Group A

- unsure
- closure
- enclosure
- measure
- pleasure
- treasure
- pressure
- leisure

Learning Objective: to spell words ending in *-tious*.

Group B

- nutritious
- cautious
- infectious
- ambitious
- scrumptious

Look, cover, write, check

1. Look at the word.
2. Cover it.
3. Write the word down.
4. Check whether you spelt it correctly.

Repeat this 3 times for each word.

Writing the words in sentences

Once you have completed the *look, cover, write, check* activity, try and write a list of sentences, including each word in a sentence.

If you are not sure what a word means, check the definition on a online children's dictionary.

Above you will see 2 spelling lists. Hopefully you will find the time to work on both Group A and Group B over the course of this week, but please remember you only need to be practising one list at a time.

Here are two activities that we suggest you use to practise your spellings.

Key skills practice

Premium Property For Sale! Answers

1. What do you think 'eye-holes' are?

Accept: windows.

2. How many rooms does this property have?

Accept: one.

3. What is the purpose of this text?

Accept answers relating to persuading people to buy the property, describing the property or informing people about the property's sale.

4. Find three phrases which show how the author has made normally boring features sound more appealing.

Accept any reasonable extract from the text, including the following: dense, extensive forest / stiff, wooden walls / thatched with the finest straw / all from the same space / never too far away / eye-holes to watch through for enemies / luxury carpet made from local plants.

Life Cycle of a Yellow-Eyed Penguin Answers

1. Which word means the same as young?

Accept: juvenile.

2. How long do the parent penguins guard the chicks?

Accept: day and night for forty to fifty days.

3. Why do you think the penguins return to the place they were born when they are ready to breed?

Accept any reasonable explanation describing the need to return to a safe place where they will find the same species.

4. Why does the author use the word 'cautiously' to describe how the juveniles head out to sea?

Accept any explanation linking the need to be careful with the fact that 'not all return' meaning the sea must be dangerous. Also accept that they are young so may not have much experience at sea.
